

QUESTIONS —WEBISODE 6 OF RESET:

In the sixth webisode of RESET, the orange ooze is spreading as the NZ Prime Minister flies over the disaster zone in a helicopter, and later talks to the President of the United States of America about the situation. In RESET, the fictitious (made up) Prime Minister is named RATU PIRINI and is played by famous New Zealand actor, George Henare.

RESEARCH TASK:

Find out all you can about actor George Henare and his career. Once you have read about him, decide which are the most important things that you would mention in a one paragraph biography of him. Write the one paragraph biography as if it were going in an article about RESET for the newspaper.

QUESTIONING:

The characters in RESET all have a lot of questions about what is happening on Earth. Questions are punctuated with Question Marks (?). For example: Madam President asks, “What is happening to our planet?”

Write THREE questions that you would like to ask about RESET or that you would like to ask the RESET cast and crew. Send them to resetwebseries@gmail.com and we'll pick a few of the best questions and get the relevant actor/writer/director/visual effects supervisor to send you their answer.
