

## SET DESIGN ACTIVITY:

Imagine that your school or house is being affected by orange ooze, just like the school in RESET. You are the set designer and must design your plan for where to put the puddles in the shot. You can work individually or in groups.

### ACTIVITY:

- 1) Take a photo of a location somewhere in your school. (Or sketch an area if you don't have access to camera and printing). If you prefer, take a photo of a room in your house or a section of your garden.
- 2) Print out the photo on A4 paper. (Or use the sketch)
- 3) Plan where you will locate your puddles and blue electricity etc in the scene. Either draw them on to your location or cut out orange puddle shapes and stick them on your picture. You might even want to put glitter on the puddles to make them look like the RESET ooze.
- 4) Draw or make cut-out characters and position them for your scene on the photo.
- 5) **ADVANCED:** Get a box or cardboard and create a **DIORAMA** of your scene by making two walls and a floor out of cardboard. (Create a 3D corner) and sticking your photos on the walls and floor. Make cardboard characters you can move around like they are in a small puppet theatre.
