

HIDDEN FROM SIGHT—WEBISODE 7 OF RESET:

JUSTIN finds symbols appearing inside a hollow tree in webisode 7 of RESET. These symbols are RUNES. In RESET, Justin seems to be exploring many symbols and codes from ancient languages. He has hieroglyphics from Ancient Egypt, runes from the Vikings of Northern Europe, and astrological symbols. Watch webisode 7 and see if you can copy the runes inside the tree. You may need to pause the film to see them all. There is also a picture of the tree on the next page. Copy the runes you can see. Then use the RUNE DICTIONARY below to work out what messages or words have appeared in the tree.

Make up a message of your own using the runes. The letters underneath the runes above are our alphabet, so you can make up a code using the word meanings or the alphabet meanings of the runes. Share with a friend and decode theirs.

You might want to do some research on what runes are, so that you know more about them. They are pretty interesting.
